### INSTALLATION

### ADJUSTING THE BOTTOM COVER

Beforeremoving the transportation bolts, please fix the bottom covert of the bottom of the washerdry er Laydown the machine (fig. 1.), screwoff the feet and adjust the bottom cover with the four holes corresponding thes are wholes of the feet. Then screw the feet back on through the cover and fixit thus securely to the bottom of the machine (fig. 2.).

Itkeepsoutthedampnessandreducesthenoise.

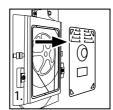

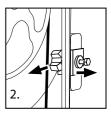

### DISMANTLE THE TRANSPORTATION BOLTS

Thetransportationboltsaredesignedfordampingantivibrationcomponentsinsideofthewasherdryerduring the transportation process.

- 1. Remove the back cover.
- 2. Remove the three bolts on the rearside and takeout the synthetic stabilisers from within the machine.
- 3. Replace the back cover.
- 4. Filltheholesleftbytheboltswithblankingplugs.

Note:Keepthetransportationboltsandsynthetic stabilisers in a safe place for later use.

#### ADJUSTING THE WASHER DRYER

ThereareadjustablefeetunderthebottomofthewasherdryerBeforeusethey shouldbeadjustedsothatthemachineislevel.Thiswillminimisevibrationsand thusnoiseduringuseltwillalsoreducewearandtear.Werecommendusinga spirit level to level the appliance.

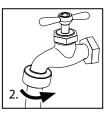

### BEFORE US

#### INLET HOSE

- 1. Connectthenutontheinlethosetotheconnectoron the water valve.
- 2. Applyinlethosetoawatertabwithcold, freshwater.

Note:Usethehose-setsuppliedwiththeappliance. Old hose-sets should not be reused.

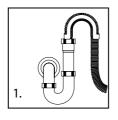

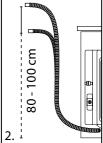

### DRAIN HOSE

- 1. Usethedrainhosebrackettokeeptheendofthe drainhoseretainedandpreventtheoutflowofwater. Don'textendthelengthofthedrainhose; fanextendedhoseisrequired, pleaseconsultaserviceman.
- Theheightofthedrainageoutletmustbe80-100cm. Fixthedrainhosetotheclipatthebackofthewashingmachinetopreventitfromdroppingoff.

Note: The drainhoses hould not be submerged in water and should be securely fixed and leak-free of the drainhose is placed on the ground or of the pipe is at a height of less than 80 cm, the washing machine will continuously drain while being filled (self-siphoning).

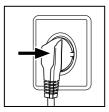

#### CONNECTING TO THE POWER SUPPLY

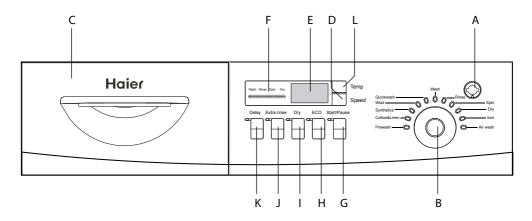

Before connecting to the power supply, check:

- ThesocketisadequateforthemaximumpoweroftheWasherDryer (Forsafety,fusesinthepowercircuitshouldberatedfornolessthan15A).
- ¬ The voltage should meet the requirement.
- $\neg$  The power outlets hould be capable of accepting the Washer Dryer plug.
- ¬ Connect the machine to an earthed socket outlet.

### WASHING & DRYING

### POWER SUPPLY

Connectthewasherdryertothepowersupply(220Vto240V~/50Hz).

### WATER CONNECTION

Turn on the tap. The water must be clean and clear.

Note:Beforeuse, checkforleakage in the joints between the tapand the inlet hose by turning on the tap. Do not use the appliance until the hoses are properly fixed.

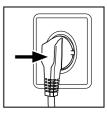

### PREPARING THE LAUNDRY

- -Sortoutclothesaccordingtofabric(cotton,synthetics,woolorsilk)andtohow dirty they are.
- -Separatewhitedothesfromcolouredones/Washthemfirstbyhandtocheckif they fade or run.
- -Emptypocketsfromobjectslikelightersandmatcheskeyscoinsetcand remove the harder decorative objects (e.g. brooches).
- -Garmentswithouthemsunderwearfinelywoventextilesuchasfinecurtains aretobeputintowashbag(itisbetternottowashtheminawashing machine).
- -Closezippersandhooksmakesurethebuttonsaresewnontightlyandplace small items such as socks, belts, bras, etc. in the wash bag.
- ¬Unfoldlargepiecesoffabricsuchasbedsheets,bedspreads,etc.
- ¬ Turn shirts inside out.

#### PLEASENOTE

This Washer Dryer is for domestic use only. Do not use it for purposes other than that for which it was designed. Follow the instructions given on the label of each garment and washonly machine-washable garments. Do not dry garment that has been cleaned with industrial chemicals.

### SING THE APPLIANCE

### LOADING THE MACHINE

Openthewasherdoor, putinthelaundrypiecebypiece. Close the doortightly.

- -WhenfirstusingtheWasherDryer,letitrunemptywithoutdetergentforone quickwashcydetopreventthelaundryfrombeingtaintedbyoilordirtywater from the Washer Dryer.
- ¬ Do not overload the Washer Dryer.

### SELECTING DETERGENT

Thewashingefficiency and the performance is determined by the quality of detergent used Special hon-foaming detergent produces good washing results. Use specific detergents for synthetic and woolleng oods. Do not used hyde an ing agent such as trichloroethyle ne and similar products.

NoteDonotaddmoredetergentthanneededPleasefollowthedosagerecommendation on the detergent package.

### ADDING DETERGENT

Slideoutthedetergentdrawerandputtherequireddetergentandsofteningagent intothecorrespondingcompartments.Pushbackthedrawergently.(Refertothe instructions on the drawer)

### Caution:

-Forpre-washingprogram, detergent should be added to both compartments and 2. For other programs, do not add detergent to compartment 1. -If iquiddet ergent will be used please fill into the dosage cup and place it directly

into the drum together with the laundry.

 $\neg Do not over uses of tener; otherwise, it will damage the artificial fibers.$ 

### SELECTING PROGRAM

 $\label{eq:constraint} Togethebestwashingresults an appropriate washing program should be selected according to the laundry type Please turn the program knob clockwise to select the right program.$ 

### SELECTING FUNCTIONAL

Selecttherequired options. (Refer to the "Control panel" pages 08 and 09). Otherwise keep all the buttons deselected lify ouw is htto dryy our laundry directly after the wash cycle is finished, please press the "Dry"-button.

### WASHING & DRYING

### SETTING WASHING TEMPERATURE

Pressandholddownthetemperaturebuttonuntilthedesiredtemperature is selected or the symbol  $\ast$  for no water heating.

### SETTING SPIN SPEED

Pressanchold:downthespeedbuttonuntilthedesiredspeedisselectedorthe symbol"--"isselectedfornospin.See"Operationalfunctions"on the "Control panel" pages (08 and 09) for selecting temperature and spin speed. It is a ble to select the recommended value.

#### WASHING

PresstheStart/Pausebutton.TheWasherDryerwilloperateaccordingtothe pre-setprograms.TheWasherDryerwillstopoperationautomaticallywhena washingcydeends.The"End"signwillappearonthedisplay.Openthewasher door and take out the laundry.

#### DRYING

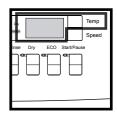

If youwishtodrywetlaundrypleases electone of the drying programs by turning the program knob (Refer to the "Control panel" pages 08 and 09).

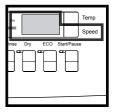

### AFTER USING THE APPLIANCE

Tumoff the water supply and unplug the power cord. Open the washer door to prevent formation of moisture and odours Letthe door open while not used.

### TIPS FOR SAVING ENERGY

- 1. Collect clothes for one full wash load.
- 2. Avoid overloading the washer dryer.
- 3. Pre-wash only heavily soiled clothes.
- 4. Reduce the amount of detergent or choose the speedup washprograms for slightly soiled clothes.
- 5. ChooseproperwashingtemperatureModemdetergentscanwashwithverygoodresultalreadyinlowertemperature than 60°C. Only user higher temperature than 60° for heavily soiled laundry.
- ${\small 6. Follow the dosage recommendation on the detergent package to avoid using to omuch detergent.}$
- 7. Softening agent makes clothes feel softer and easier to iron.
- $8. \ Adding fabric conditioner will also get rid of static condensation to make iron ingeasier.$

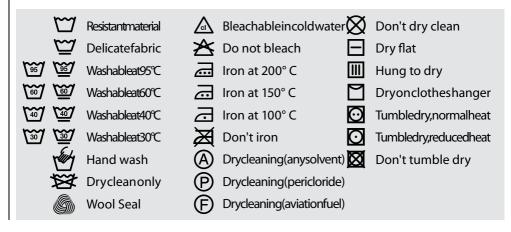

### CARE CHART

### WASH LOAD

Cotton: 6 kg	Synthetic: 3 kg	Delicate:	2 kg	Quick: 3 kg
LOAD REFERENC				
Bed sheet (single)	Cotton		Approx	imately 800g
Blanket	Wool		Approx	imately 3000g
Blended fabric clothes	/		Approx	imately 800g
Jackets	Cotton		Approx	imately 800g
Jeans	/		Approx	imately 800g
Overalls	Cotton		Approx	imately 950g
Pyjamas	/		Approx	imately 200g
Shirts	/		Approx	imately 300g
Socks	<b>Blended</b> fabrics		Approx	imately 50g
T-Shirts	Cotton		Approx	imately 300g
Underwear	Blended fabrics		Approx	imately 70g

#### PLEASENOTE

The final part of a drying cycle is a cooling cycle without heat to ensure that the dried items are left at a temperature that keeps them undamaged.

### **CLEANING & CARE**

### AFTER WASHING

Turnoffthewatersupplyandpulloutelectricityplugafter eachwash.Openthewasherdryerdoortopreventformation ofmoistureandodours.Ifthewashingmachineisleftidlefor alongperiod,drainthewaterinthemachineandreplacethe drain hose.

### CLEANING THE DETERGENT DRAWER

Cleanthedetergentdistributiondrawerregularly.

Swingoutthedrawer,flushitcleanwithwaterandthen replace it.

### CLEANING THE MACHINE

UnplugthemachineduringdeaningandmaintenanceUse asoftclothdampenedwithsoapliquidtocleanthemachine caseandrubbercomponentsDonotuseorganicchemicalsor corrosive solvents.

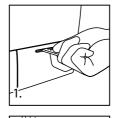

#### CLEANING THE FILTER

Clean the filter once a month:

- 1Pulloutthebottomcoverwiththinobjectsortoolscarefully.
- 2. Remove the filter by turning counterclockwise.
- 3. Flush the filter clean with running water.
- 4. Replacethefilterbyturningclockwiseandremountthe cover.

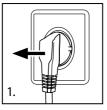

Caution:

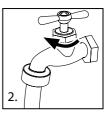

Thefiltermustbeinplace, or it may lead to leakage.

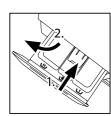

### MAINTENANCE

### WATER INLET AND INLET FILTER

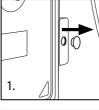

Topreventblockagetothewatersupplybyingressofforeign substances, cleanthewaterinletandinletfilterregularly.

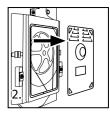

# 

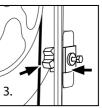

#### MOVING THE MACHINE

If the machine is to be moved to addistant location, replace the transportation locks removed before installation to prevent damage as shown below.

- 1. Remove the blanking plugs.
- 2. Remove the back cover
- 3. Insertthesyntheticstabilisersandthetransportationbolts.
- 4. Tighten the bolts with a spanner.
- 5. Replace the back cover.

#### LONG PERIODS OF DISUSE

If the washerdry erisleftidle for along period, pullout the electrical plugand tumoff the water supply Open the washer dryerdo or to prevent formation of moisture and odours. Let the door open while not used.
